

FRIEZE IS THE WRONG ART WORLD

We need an art world that values all its workers— from the studio, to the office, to the building site!

- Frieze is a for-profit event that pays **less than \$1/ sq ft** to lease city park land for two months.
- Frieze makes art inaccessible to many working New Yorkers with a ticket price of \$42 per person.
- Frieze would rather bring in low-wage, non-union labor from WI, than pay NYers a living wage.
- Frieze is the only major NYC art fair using non-union labor to construct its fair.
